

### THE LAST MEETING

In March 2022 there has been a meeting between the European partner: this time we can finally meet each other in presence!

Between 22nd and 24th of March five out of six countries partners of the Erasmus+ Project met in Italy, in the city of Milan, for the first time after Munich 2019.

Assignments given to various partners were checked, analysed and discussed, and then approved in plenary in order to finalize IO1, IO2 and IO3.

After two years of virtual meetings, getting back to meeting in presence allowed all participants to rediscover the “working essence” of the project.

All the partners are aware that the work done together it’s going to be a boost for each organization.

### NEXT STEP

Another important goal of the meeting in Milan was to plan the next transnational meeting. The partners group of nations decided to begin organise the next step: the meeting in July in Malta.

That will be the last meeting of the project and it is proposed to involve the staff and peers of the different countries that are part of the project.

During this meeting there will be training moments in which the all group will test parts of the curricula that the project created.

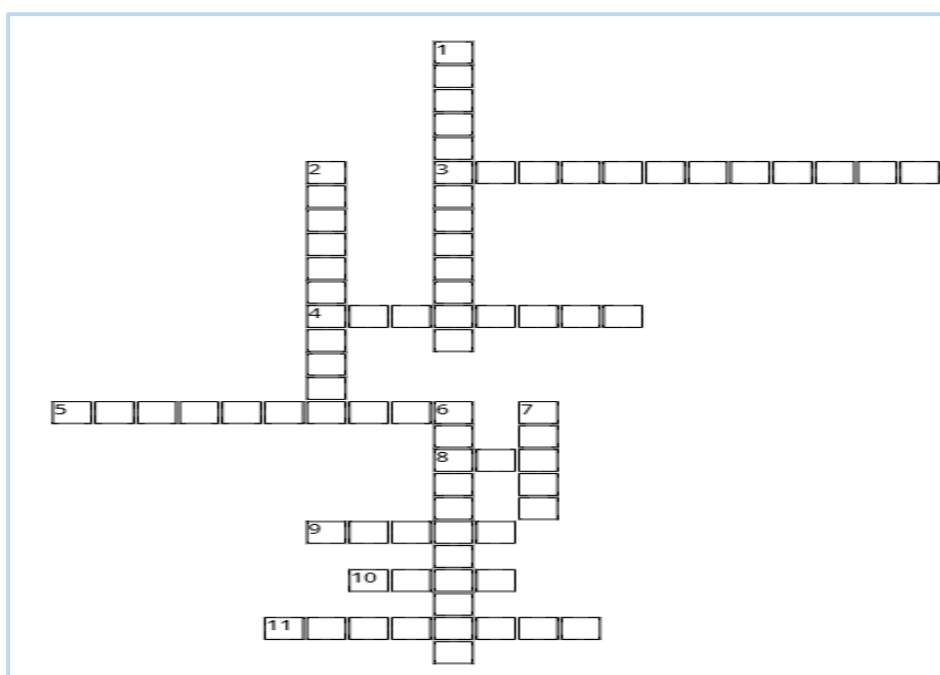

The testing in Malta will be very useful to improve the knowledge of the teaching material and to test it for the future utilization on the manuals.

### THE E-LEARNING COURSE

During the meeting in Milan the Italian partner Andrea Ascari (CEIS Reggio Emilia) introduced the plenary group to the E-Learning-Course. The course aims at the creation of a training path that can be used exclusively online to address some of the issues that are covered in the manual. The partners will contribute in creating this online course by producing video or audio training material that will be usable by all those who will be interested in this kind of training.

It’s a very useful tool for the partners to give value to the material that has been produced also after the end of the project
